

Airfield details

- Rowland Flat airfield is privately owned by Graham Koch. 0417 838 970
- Located in the Barossa Valley approx. half way between Tanunda and Rowland Flat, right next to the famous "Jacobs Creek" (34 33.809'S 138 56.983'E) It can be located on the Adelaide VTC or the Adelaide VNC. Multicom 126.7
- The 08 / 26 Runway is a natural surface approx. 600m in length at an elevation of approx. 840ft. above mean sea level. The runway to the west has a down hill gradient.
- Due to the location of hills, when operating on RWY 26 it is best to use right hand circuits.
- Under certain conditions wind shear can be experienced on short final to RWY 08.
- If anymore information is required contact Steve Ahrens on mb 0427 244930
email: steve@lyndochmotors.com.au
- Fly-In aircraft are asked to be landed before 10:30am sharp. The Flying Display will begin at 11:00am sharp. Departures will be after the Flying Display approx. 3:45pm. Unless prior arrangements have been made.
- Use of the landing ground and associated facilities is entirely at the users risk. Pilots must maintain responsibility for assessment & suitability of runway & other areas together with safe operation of aircraft and the safety of all aircrew and passengers.
